

Ag Classes

At Mance Park Middle School, you have the opportunity to take Principles of Agriculture (7th grade). After taking a year of Principles of Agriculture you can take Small Animal Management, Equine Science, and Horticulture. (8th grade)

At Huntsville High School, there are several different ag classes that are available to take. First the student must take a year of Principles of Agriculture. Then, if the student is wanting to pursue Animal Science, they can take Small Animal Management, Livestock Production, Wildlife and Fisheries Management, and Advanced Animal Science (science credit for 11-12). If they would like to pursue Plant Science they can take Horticulture Science, Turf Management/Landscape Design, Greenhouse Operation and Production, Floral Design (fine arts), and Advanced Plant and Soil Science (science credit for 11-12). If they would like to pursue Welding, they can take Welding, Dual Credit Welding, Metal Fabrication, or Agricultural Mechanics and Metal Technologies.
